Kara Emig Gerner That poor child was victimized by 3 black men: the 2 robbers, then the judge. If the judge was really concerned about how the victims felt about black men, he could have fixed that by showing them support and representing the goodness that exists among his race. Instead, he proved that blacks can be just as racist as whites. How sad that he chose to take that route when he had such an opportunity. 😞.

Christine Fuller Chickenshit...you're a complete disgrace! Not because you're black but because you're racist and not fit to make impartial judgements for victims of crimes. You thoroughly disgust me.

Roderick Goggenheimer This Affirmative Action moron is what you get when you pass over more qualified people in order to give this nitwit a seat in the school based solely on skin color. Affirmative Action is a disaster.
